SkipperLabs

Agentic AI for Investors Inside KR #1 Brokerage App

Skipper - your investment agent

Inside Korea Investment & Securities (KR #1)

Launching November 2026

INVESTOR INTRODUCTION / SEPTEMBER 2026

AI-generated concept image

AI is entering the brokerage app.

25.8M

funded customers at Robinhood alone

Q1 2025 category benchmark

The shift is already happening.

Robinhood introduced Cortex in 2025,
bringing AI insights into investing.

Our entry point

Korean retail brokerages

AI content in existing investor workflows

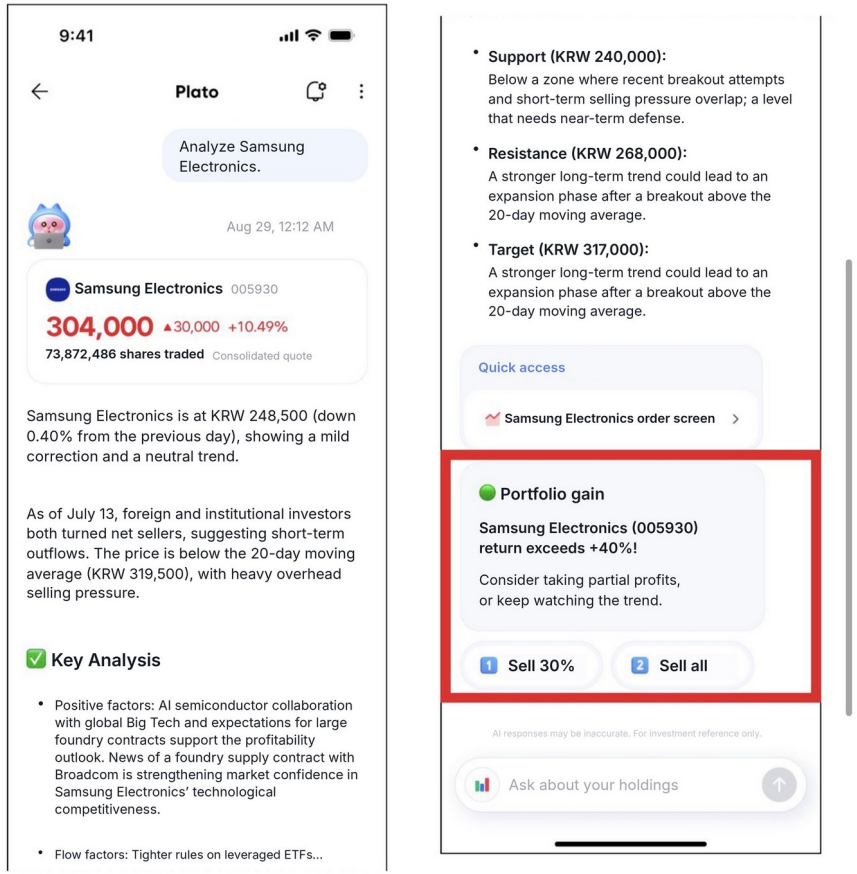

Our expansion path

Brokerage AI in Korea
Then U.S. partners and investors

Thesis: help brokerages add market intelligence where investors already act.

Sources: Robinhood Q1 2025 results and Cortex announcement. Category reference; not our addressable-market estimate.

Explain the change. Show the evidence.

What changed?

Compares reports across market sessions.

What is connected?

Dynamic Grouping links companies using prices, flows, filings and news.

What supports the answer?

Source mapping and numeric checks before delivery.

Patent-pending reporting engine. Product example; sample values only.

Early usage. Inside a major brokerage.

10M

views in the first month

11x

usage growth within 3 months

KIS

Korea Investment & Securities

Korea's No.1 securities firm by FY2025 net profit (~US$1.4B)

Selected AI analysis, reporting and embedded-service modules

Non-commercial PoC; excludes the full product and trading execution.

Company-reported usage. Views are not unique users or paying customers.

KIS profit and rank: SmartToday, Feb. 11, 2026 / Korea JoongAng Daily, Feb. 12, 2026. USD amount is approximate.

One engine. Multiple revenue paths.

01

Content licensing

Banks and brokerages license AI market content.

02

Engine usage

Planned usage-based fees for conversational AI / APIs.

03

Consumer premium

Planned US$9.99/month subscription; free tier available.

Scale through partners

One brokerage integration can reach an existing investor base.

Reuse the intelligence layer

Shared market context and caching are designed to limit inference costs.

Product leadership. AI engineering.

Bruce Seo

Founder & CEO

Former CEO, Purple M

Kia & CODE42.ai mobility JV

Previously Kakao

Korea's No.1 mobile messenger, KakaoTalk

Nearly 50M monthly users in Korea

linkedin.com/in/youngwuseo/

Choon Lee

Principal Engineering

AI data infrastructure. Previously Kakao.

KakaoTalk: Q2 2026 MAU. Purple M: Kia, July 20, 2020.

SkipperLabs

Build the next chapter with us.

Seeking U.S. investors and strategic partners.

01 **Scale brokerage AI**

Expand integrations and repeatable paid deployments.

02 **Launch the full product**

Target: November 2026, with confirmed orders via broker APIs.

03 **Build toward a U.S. brokerage**

Develop the partnerships and operating plan.
